

Dear Silver Spur Circuit Exhibitors-

I hope you are all doing well and I am sure most of everyone is ready for some hopefully cooler weather this fall and definitely some rain!

Please find enclosed the 2011 Silver Spur Circuit October Show Bill. The only major change to the show schedule is we will begin Trail Saturday for the Saturday/Sunday show at will about 10:00 a.m. Saturday. We would greatly appreciate your help, in getting to trail when possible so that the show may not run so late Saturday night. Additionally, if you do not participate in halter, we request that you be ready for trail when it opens! We greatly appreciate your help in this!

We also are experiencing MAJOR road construction currently. The project is on Grape Creek Road (the road that runs in front of the 1st Community Credit Union Spur Arena) from Chadbourne Street to 50th Street. At this point there is absolutely no traffic allowed on the road or to cross the road and current projections are for the project to not be completed until around Thanksgiving, so please plan accordingly. Please review the directions included. Also, do not attempt to go around barricades, as they are issuing tickets for those who do that! Please feel free to call closer to show time for any revisions or visit our website and we will keep it as up to date on the Silver Spur Circuit page as possible.

We hope to have you all here with us in October! Please do not hesitate to contact me to make stall and RV reservations! Thank you for your continued support of the Silver Spur Circuit!

Thanks again,

Brittni Kaczyk
